SUMMARY:

MERN Stack Developer with extensive experience in creating and deploying fullstack web applications using React, Node.js, Express.js, and MongoDB. Proven ability to develop scalable and efficient solutions, optimizing performance and user experience, with strong expertise in modern JavaScript and React development.

TECHNICAL SKILLS:

Frontend - Javascript, React.js, Redux, React-Query, Next.js.

Backend - Node.js, Express.js, Mongoose.

Database - MongoDB, Supabase.

Styling - CSS3, Sass, Tailwind.

EXPERIENCE:

Front End Developer - Eziline Software House

- Created dynamic user interfaces using React.js and modern JavaScript ES6.
- Utilized Redux and Redux Toolkit for efficient state management in React applications.
- Built responsive designs with CSS3 SASS and Tailwind CSS, ensuring mobile-first layouts. Established routing and navigation using React Router for seamless user experience.
- Worked with React Query to manage server-side data fetching and caching.
- Applied JavaScript Promises, Async/Await, and React Hook Form for handling asynchronous operations and form validation

MERN / Full Stack Web Developer - Full Stack Zone Private Limited

- Expanded full-stack applications using React, Node.js, Express.js, and MongoDB.
- Configured secure JWT authentication for user login and session management.
- Embedded RESTful APIs to connect the frontend React with backend services.
- Optimized data storage and queries using MongoDB for scalability.
- Built and deployed backend logic with Node.js and Express.js.
- Collaborated with teams to ensure seamless integration between the frontend and backend.

EDUCATION:

Gomal University, Dera ismail khan | Bachelors Degree in Computer Science
