

Naveed Ahmad

MERN / Full Stack Developer

+92-3069829900 @ naveedahmad.codes@gmail.com 7th road, Satellite Town, Rawalpindi

SUMMARY

MERN Stack Developer with extensive experience in creating and deploying full-stack web applications using React, Node.js, Express.js, and MongoDB. Proven ability to develop scalable and efficient solutions, optimizing performance and user experience, with strong expertise in modern JavaScript and React development.

SKILLS

Front-End Stack

HTML5	CSS3	Sass	Tailwind CSS	Styled Components
JavaScript(ES6+)		React.js	Redux	Redux Toolkit
React Query		React Hook Form		

Back-End Stack

Node.js	Express.js	MongoDB	Mongoose	JWT
RESTful APIs	bcrypt	Helmet.js	CORS	

Tools & Workflow:

Git	GitHub	Webpack	Babel	Postman	Netlify
Railway					

EXPERIENCE

Internship - Front End Developer

Eziline Software House - Rawalpindi

- Created dynamic user interfaces using React.js and modern JavaScript (ES6+).
- Utilized Redux and Redux Toolkit for efficient state management in React applications.
- Built responsive designs with CSS3 (SASS) and Tailwind CSS, ensuring mobile-first layouts.
- Established routing and navigation using React Router for seamless user experience.
- Worked with React Query to manage server-side data fetching and caching.
- Applied JavaScript Promises, Async/Await, and React Hook Form for handling asynchronous operations and form validation.

Internship - MERN / Full Stack Developer

Full Stack Zone Private Limited - Islamabad

- Expanded full-stack applications using React, Node.js, Express.js, and MongoDB.
- Configured secure JWT authentication for user login and session management.
- Embedded RESTful APIs to connect the frontend React with backend services.
- Optimized data storage and queries using MongoDB for scalability.
- Built and deployed backend logic with Node.js and Express.js.
- Collaborated with teams to ensure seamless integration between the frontend and backend.

PROJECTS

Shop Hub - Ecommerce Platform

<https://shophub4.netlify.app/>

- Developed an ECommerce platform using the MERN stack.
- Created RESTful APIs for managing products, categories, orders, and users.
- Enhanced an admin dashboard for managing products, categories, users, and orders.
- Built a responsive UI with React.js and Tailwind CSS.
- Managed app state with Redux and Connected Stripe for payments.
- Integrated JWT authentication for secure login, sign-up, and password recovery.
- Added a product search and user reviews system for enhanced customer experience.
- Deployed the app on Netlify (frontend) and Railway (backend).
- TECH STACK** : Node.js, React.js, Express.js, MongoDB, JWT, Stripe, Redux, Tailwind CSS

Fast React Pizza - Pizza Ordering App

<https://my-own-fast-react-pizza.netlify.app/>

- Built a front-end application using React to enable pizza ordering functionality.
- Linked dynamic pizza data fetching from an API to display available pizzas.
- Used Redux for state management to handle the pizza order flow.
- Implemented React Router for seamless navigation between different pages.
- Designed a responsive UI with Tailwind CSS for a smooth user experience.
- TECH STACK** : React.js, Redux, React Router, Tailwind CSS

Bankist - Front End Banking App

<https://my-own-bankist-app.netlify.app/>

- Assembled a front-end banking application using JavaScript, enabling users to manage transfers, loans, and account balances.
- Optimized dynamic UI interactions with JavaScript, allowing real-time updates for user transactions.
- Crafted the app to support account management features, including balance overview, transaction history, and loan management.
- Utilized HTML5 and CSS3 for responsive, mobile-first design, ensuring optimal performance across all devices.
- Built and managed user workflows like login/logout, account details, and fund transfers with JavaScript.
- TECH STACK** : HTML5, CSS3, JavaScript
